

EBERLE

HF/BiVac

Arthroscopy electrodes

Distribution by Eberle GmbH & Co. KG

The BiVac electrodes are used for cutting, vaporising, coagulation and for thermal modification of soft tissue.

Single use

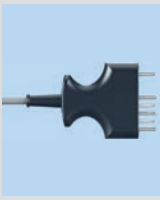

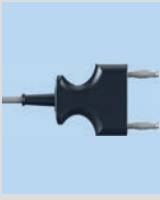

Description	Article no.	Size
 Suction vaporisation electrode	900273	L = 150 mm
 Vaporization electrode without suction	900406	L = 150 mm
 Suction vaporisation electrode	900274	L = 150 mm
 Suction vaporisation electrode bendable with cutting edge	900368	L = 150 mm
 Suction vaporisation electrode	900351	L = 180 mm
 Bipolar vaporization electrode	900276	L = 150 mm
 Bipolar hook electrode	900277	L = 150 mm 2 mm x Ø 0.8 mm
 Bipolar hook electrode	900278	L = 150 mm 3 mm x Ø 0.9 mm
 Suction vaporisation electrode, fine	900275	L = 150 mm

Connection cables, handles and adapters

Distribution by Eberle GmbH & Co. KG

Hose connection for suction from 4 to 8 mm

reusable

		Suction handle, standard, bipolar	Delicate suction handle, bipolar
			
	Description	Standard, ARTro 200	Small Suction handle, ARTro 200
	Article no.	900333	900341
	Length	4 m	4 m
	Description	Standard, international 2 pin	Small suction handle, international 2 pin
	Article no.	900352	900402
	Length	4 m	4 m
	Description	Standard, Martin Maxium	Small suction handle, Martin Maxium
	Article no.	900403	900404
	Length	4 m	4 m
	Description	Standard, Erbe VIO	Small suction handle, Erbe VIO
	Article no.	900353	900405
	Length	4 m	4 m

	Connection adapter	Article no.
	Handle, ARTro 200 on Arthrocare	900365
	Handle, ARTro 200 on Mitek	900354
